The establishment of a Female Dispensary at Silchar Calli was sanctioned in G.O. no. 9808-M — Medical 35-18-2 dated the 24th Nov 1918. The necessary provision for the construction of a building was made in the order; the Dt. Board, the Municipal Council, Silchar and the Local Improvement Committee each agreeing to contribute a third of the cost of the building. It is not stated why no steps were taken to construct the necessary building till now.

It is also reported that no Medical officer is available for being posted to the place.

Submitted for orders

C.S. 13/1/22

Before approving of the proposal of the Senior Surgeon it would be desirable to ascertain what the Dt. Board and the Municipality have to say in the matter.

OFFICE OF THE SENIOR SURGEON,
MYSORE GOVERNMENT,
Dated Bangalore, the.....7th January.....1922.

FROM

The Senior Surgeon with the Government of
His Highness the Maharaja of Mysore,
Bangalore.

To

The Secretary to Government of
His Highness the Maharaja of Mysore,
Revenue Department, Bangalore.

SIR,

I have the honour to bring to the notice of the Government that during my recent visit to Thirthahalli on inspection duty, I found the building, in which the Female Dispensary is located, utterly unsuited for the purpose. It has no operation room and the room intended for examination of patients was so dark as to render an examination extremely difficult and unsatisfactory, if not altogether impossible: however, I found it was threatening to come down and the Assistant Surgeon now in additional charge was prescribing for the female patients in the Male Local Fund Dispensary.

In the absence of a suitable building with the necessary accommodation and other conveniences and also a Lady Medical Subordinate in charge, it seems hardly worthwhile to maintain a female dispensary with its establishment. Gynecological cases will not generally go to a male doctor, while general cases could be attended to at the male dispensary as in other places where there is no separate Female Dispensary.

Copy of remarks in the visitor's book of the Female Dispensary, Thirthalli by the Senior Surgeon in Mysore.

Dated, 19th December 1921.

Inspected the Female Dispensary. There has been no Lady Apothecary from 17th October 1920. The work has been done by the Assistant Surgeon of the Male Dispensary all these months. The Dispensary is housed in a private building which is entirely unsuited for the purpose. The roof of the main building is about to collapse. It is at present propped up on sticks. The front verandah is used for prescribing and compounding. The room set apart for examination of patients is quite dark. There are no latrine, Kitchen or operation room. The back yard is in a filthy state. The floors are made of mud and cowdunged. All the furniture and medicine bottles get dusty and dirty. It is not possible to carry on the work under such impossible conditions and as there is no Lady Doctor available just now, the dispensary may be closed until such time as a more suitable building becomes available. There is no use in paying house rent and maintaining a staff, when there is no Lady Doctor to be in charge. Besides the building may collapse at any time. During repairs the furniture and other articles will have to be removed elsewhere. No male doctor can be in charge of a Female Dispensary, as Gynecological cases will not go to him.

The Midwife is doing very good work. She has already conducted 118 cases. She is said to be popular.

SIR,

With reference to your letter No. L.4159-Med.78-21-3, dated 26th Jany.1922, I have the honour to state that the Deputy Commissioner, Shimoga District, who had been requested to communicate the views of the District Board, states in his letter No. C.1125-L.B. (21-22), dated 27th March 1922, that the Dispensary may be temporarily closed till a suitable building and a lady doctor become available and that, as the institution was maintained at the cost of the Maland Improvement Fund it is unnecessary to obtain the views of the local bodies. The Thirthalli Municipality in its resolution dated 27th March 1922 (copy enclosed) not only expresses the desirability of continuing the Female Dispensary but also urges that provision should be made for maternity cases and that a lady doctor should be posted to the institution at an early date. The fact that they have had nothing to spend on account of the institution has evidently influenced the Municipality in coming to their present decision.

Wherever separate arrangements now exist for rendering Medical aid to women by women it is my idea to have the male and female dispensaries located under the same roof to co-ordinate
